Renee,

Attached are my edits on the document. Minor stuff.

I would like to request some figures also go with the report.

- A figure showing the original location of each waste stream and the nomenclature used for each area of the stabilization and containment building upon our arrival at the scene.
- A figure showing the final disposition of each waste stream upon our demobilization.

I think we print-screened a couple of these from Geoplatform for IDEQ use and I would like to possibly start with those, but with cleaned up labeling and other details. Let me know if that is doable and if you want to discuss.

Also I didn't see a photo log and was wondering if I can review that as well prior to finalizing?

Thanks,  
Stephen Ball

Stephen,  
Attached please find the word version of the Trip Report for the Grand View site.  
Please let me know if you have questions or comments.  
Respectfully,  
Renee
